Owensby provided Board members a handout showing accounting for their students and faculty. B. Gabato asked if any information was known on the eleven unaccounted for students. L. Hine stated those students had received a refund but she had no additional information. K. Espinosa asked about where their credits were able to transfer to and L. Hine gave Everest College and ITT Technical Institute as examples. T. Smyer noted that the faculty was very professional by continuing to improve teaching under difficult circumstances and complemented the improved National Council Licensure Examination (NCLEX) pass rate. L. Hine concurred that the faculty were very professional and doing a great job. It was moved and seconded the Board accept the plan as in compliance with termination of a program but directed board staff to continue receiving reports until the last cohort of students have completed the program. Dr. Mills gave a brief history of her work experience and expressed her student advocacy. She also explained how Touro University has been working very hard to assist current graduates in preparing for their exams. She then introduced Dr. Michael as the Director of Nursing. Dr. Michael provided the Board with some academic and work history as well. T. Smyer complimented Touro's plan but encouraged more focus on a systematic evaluation. Dr. Michael explained that J. Hamilton will be systematically evaluating the program. T. Smyer asked R. Colosimo about Commission on Collegiate Nursing Education (CCNE) accreditation and what their response had been. She explained that Board staff have requested all communications between Touro and CCNE. R. Caruthers asked about Touro University's status on admissions and after much discussion, the Board postponed admissions until the July 2011 G-4 NCLEX pass rate is received. At that time, the Board will decide whether or not to

6. Review and discussion of annual reports for 2010 by fully approved nursing education programs, NAC 632.701: R. Colosimo stated that the Nevada System of Higher Education (NSHE) schools are doing very well and, compared to the National Council of State Boards of Nursing (NCSBN) 2009 statistics, they would be first of all states and territories. It was noted that many of the schools have integrated the Quality and Safe Education for Nurses (QSEN) standards for nursing education into their curriculum. The University of Nevada Reno (UNR) and University of Nevada Las Vegas (UNLV) Doctorate of Nursing Practice (DNP) program have accepted their first students. Additionally, College of Southern Nevada was selected for a very important simulation study by NCSBN. Great Basin and Nevada State College have finished their online BSN programs.

Dr. McHugh explained that she is a turn around specialist and with the hiring of D. Ignaticus as their nursing consultant, she expects that the NCLEX pass rate will improve. R. Colosimo stated she advised Dr. Carver not to apply for the extension of the provisional status at this meeting because she felt there was not enough data for the Board to make a decision but stated that should be the decision of the school. K. Espinosa asked about the number of students in a cohort who have been repeating classes. D. Begley also asked about the numbers in cohorts and why with small numbers students weren't succeeding. K. Espinosa and D. Begley questioned the open admission policy and whether it is appropriate for a nursing program. B. Gabato questioned why there was nothing in the plan addressing faculty performance. Dr. Carver stated they have the June cohorts and the next admission will be in September. R. Colosimo requested that the Board

ACTION discontinue admissions until the program submits sustained data documenting faculty and curriculum performance resulting in student success.
