

# **NEVADA STATE BOARD OF NURSING ADVISORY OPINION**

## **Current RN License Required to Perform Specific Jobs**

As there appears to be some confusion concerning the requirement of a current RN license to perform certain jobs, the Board offers the following opinion for clarification.

It is the opinion of the Nevada State Board of Nursing that the practice of professional nursing includes the following jobs unless a person is otherwise legally qualified to perform those jobs:

1. Teaching nursing at any level of preparation; and
2. Utilization Review; and
3. Case Management in Health Care; and
4. Discharge Planning; and
5. Risk Management; and
6. Quality Management

Adopted by the Board: 12/8/95
