She also noted that, although numbers were small, there continues to be some concerns regarding the performance of Kaplan College, RN program.
2. Review, discussion and action regarding Breckinridge School of Nursing at ITT Technical Institute compliance with Nevada regulations during the "teach out" of program: R. Colosimo informed the Board that the program had an academic dishonesty situation. She added that the program has more students in the last cohort as a result of this situation. C. Ratliff reviewed the events and retesting that occurred due to this situation. M. Brown asked what consequences the students encountered for those that were involved in this situation and K. Borkowski responded

that consequences for individual students was impossible because they did not know which students were involved. R. Carrauthers clarified that this situation will not change the end date for the program. Independent Consultant M. Lambert stated that in her opinion, C. Ratliff handled the situation well and explained that many schools deal with test bank issues. R. Review, discussion and action regarding Kaplan College, ADN program request for changes in admission criteria: The Board was informed that Mr. Angelastro is no longer the interim director at Kaplan College. Acting Director, L. Gonzales informed the Board that the search for a director for the associate degree program continues. She explained that Kaplan is proposing to increase its admission scores on its entrance examination. Kaplan also proposes to admit five cohorts a year rather than three. They will reduce the number of students admitted for each cohort so the yearly student admittance remains the same. This change will require faculty to teach the same courses consistently. S. Halley reinforced the importance of having expert teachers in order to have a successful nursing program. L. Gonzales believes that the changes will make the program stronger. M. Brown expressed concern about the admission score requirements being set locally and added that the admission scores are not the only process that should be reviewed. It was moved and seconded the Board accept Kaplan College change in admission requirements as proposed. MOTION CARRIED.

4. Review, discussion and action regarding Everest College plan for NCLEX first time pass rates below 80%: Director of Nursing D. MacDonald presented the correction action plan which included increasing admission test scores, requiring faculty to use more interactive teaching methods and increased rigor by decreasing second chances on exams. M. Brown questioned the increased admission test score and R. Colosimo explained that it was just one measure for schools because sometimes they have a large pool of applicants interested in nursing. R. Colosimo stated that Everest had its Accreditation Commission on Education in Nursing (ACEN) site visit in the fall of 2013 and has since meet all requirements. Therefore, Everest is awaiting final approval on its accreditation and currently needs a NCLEX score of 80% for full approval. T. Smyer added that the support of faculty was very important. R. Carrauthers approved of the "flipped classroom" which makes students much more responsible. J. Snidow supported the emphasis on faculty training. It was moved and seconded the Board accept the correction action plan and direct Board staff to conduct a site survey within six months. MOTION CARRIED.

Colosimo added that schools are required by their accrediting bodies to track student retention and employment

rates. R. Colosimo noted that TMCC and CSN were showing signs that acute care hospitals are hiring BSN nurses. R. Colosimo reviewed the many successes of the programs that changed their curricula to include patient safety standards knowledge and increased nursing research.
