As of October 2018
The Nevada State Board of Nursing was established in 1923 by the state legislature to regulate the practice of nursing. The seven-member Board appointed by the governor consists of four registered nurses, one practical nurse, one certified nursing assistant and one consumer member. Currently, the Board appoints and receives recommendations from six standing committees. The Board also appoints a Nevada licensed registered nurse to serve as the Executive Director.

The Board's regulatory responsibilities have evolved to keep pace with innovations in nursing practice thereby enhancing public protection by ensuring licensees and certificate holders practice in a safe, competent and ethical manner. The Board's functions include:

Administration

- Establishing and maintaining minimum practice standards.
- Developing and adopting regulations.
- Utilizing Board appointed advisory committees to ensure stakeholder input.
- Conducting outreach and providing education through publications, presentations and social media.
- Collaborating with consumers, individual groups, organizations, and other regulatory agencies.

Education, Licensure, and Certification

- Approving schools of nursing and nursing assistant and medication-aide certified training programs.
- Adopting exams for licensure/certification.
- Licensing advanced practice registered nurses, registered nurses, and licensed practical nurses.
- Issuing certificates to nursing assistants and medication-aides certified.
- Certifying registered nurse anesthetists and emergency medical service registered nurses.
- Approving education/training providers for ongoing competency.

Investigation and Compliance

- Investigating complaints against licensees and certificate holders alleging violations of the Nurse Practice Act.
- Conducting disciplinary proceedings.
- Administering remediation and rehabilitation programs including:
  - Monitoring licensees and certificate holders who are on disciplinary probation.
  - Administering the Board’s alternative program for nurses and CNAs recovering from substance use disorders.
MESSAGE FROM THE PRESIDENT AND EXECUTIVE DIRECTOR

Deena McKenzie
MSN, RN, CNML
BOARD PRESIDENT

Cathy Dinauer
MSN, RN
EXECUTIVE DIRECTOR
The mission of the Nevada State Board of Nursing is to protect the public's health, safety and welfare through effective regulation.

This year, the focus for the Nevada State Board of Nursing (NSBN) was the implementation of our new computer program. The official name of the program, Optimal Regulatory Board System (ORBS) is a web-based service which requires a portal for access. Most nurses have become familiar with the system, fondly known as the “portal”. The system was developed by the National Council of State Boards of Nursing (NCSBN) and offered to its member boards at no charge. NSBN’s current program was becoming antiquated and unreliable, so the Board and board staff needed to seek other systems.

Preparing for this launch took several years. It required a complete overhaul of the NSBN IT infrastructure. Nevada was the first state to go-live with this version of ORBS with several states in various stages of implementation.

The web-based program allows for complete digitization of our processes and eliminates the need for paper applications. Nurses and CNAs create a portal account electronically that allows for communication with board staff via the message center. The portal also allows nurses to upload documents directly into their account via the message center, such as continuing education certificates or complete an address and name change.

As with any new IT system, we understand there will be frustrations and challenges in using a new system. Board staff is continuing to work with NCSBN to improve workflow to ensure a smooth transition for all nurses and CNAs in Nevada.

This year has been one of growth and change for Nevada’s nurses, who also rose to the occasion on October 1, 2017. This day will be etched in every Nevadan’s mind as one of the worst mass shootings in United States history. Thankfully Nevada’s nurses worked diligently to take care of the injured even while putting their own safety at risk. Thank you to all nurses for the work that you do to ensure safe delivery of care.

REPORT ON THE OPERATIONS OF THE BOARD
STRATEGIC GOALS ESTABLISHED BY THE BOARD

- Promote a culture of safety for consumers of health care.
- Provide leadership in legislative processes related to health care and nursing.
- Conduct consumer and nurse outreach.
- Promote and collaborate in nursing education, practice and research for evidence based regulation.
- Emphasize transparency of communication and information.
- Support effective utilization of information technology.
- Participate in and promote state, national and global nursing regulatory initiatives.

Protection of the public is at the forefront of all of the Board’s decision making processes. The Board continues to remove unnecessary regulatory barriers to practice to facilitate a robust nursing workforce in Nevada.

STATE WIDE EDUCATION AND OUTREACH

Board members and staff continue to seek opportunities to educate nurses, nursing students, nursing assistants, instructors and educators, employers, nurse leaders and other health care stakeholders on regulatory matters affecting nursing practice in Nevada. Board members and staff provided several presentations on topics including substance use disorder and addiction, nursing regulation, APRN scope of practice issues and the nursing compact.

The board publishes the Nevada State Board of Nursing News magazine quarterly, at no cost to the board, with news and information about Board actions, regulations, and activities with hard copies mailed to all schools of nursing, hospitals, and health care facilities across the state. An ePublication of the current and of past issues of the Nursing News magazine are also available on the board’s website.

PROFESSIONAL AND COLLABORATIVE RELATIONSHIPS

Board staff continue to participate in national and statewide committees, task groups and meetings including the Occupational Licensing Consortium, the Governor’s Opioid Taskforce, NCLEX committee and NCLEX item review committee.

Board staff work collaboratively with other state and national regulatory agencies and healthcare and nursing organizations including, the National Council of State Boards of Nursing, the Nevada Nurses Association, The Western Regional Advanced Practice Nurses Network, the Nevada Advanced Practice Nurses Association, the Nevada Organization of Nurse Leaders, the Nevada Action Coalition and the Nevada Hospital Association. The board is committed to establishing and maintaining these valuable relationships that further public protection.
The Board of Nursing has jurisdiction over nursing education and training programs that prepare students for initial nursing licensure or CNA certification. Every program application is reviewed by the Board in accordance with requirements established by Nevada Revised Statutes (NRS) and Nevada Administrative Code (NAC) regulations. The Board maintains jurisdiction, oversight and conducts periodic reviews of existing programs. Board oversight and collaboration with these programs enhances competencies of newly graduated nurses and nursing assistants caring for Nevada citizens.

**FY 17/18 Nursing Programs:**

- 12 – Fully approved nursing programs in Nevada.
- 1 – Approved to conduct only the clinical portion of their program in Nevada.
- 1 – Provisional or Conditional approval*

**FY 17/18 Nursing Examination Pass Rates:**

The Board annually adopts the National Council Licensure Exam (NCLEX) exam as determined by National Council of State Boards of Nursing as the official competency examination for registered nurse (RN) and practical nurse (LPN) licensure in the state of Nevada.

- Nevada NCLEX-RN average pass rate 92.0%
- National NCLEX-RN average pass rate 87.11%
- Nevada NCLEX-PN average pass rate 88.71%
- National NCLEX-PN average pass rate 83.84%

**FY 17/18 Nursing Assistant Examination Pass Rates:**

The Board of Nursing has adopted the Headmaster, LLC examination as the official competency examination for nursing assistant certification (CNA) in Nevada. There are two components to the examination, a written exam and a skills exam. Both components must be passed to qualify for a CNA certificate in Nevada.

- Written Exam – Nevada pass rate 79%
- Skills Exam – Nevada pass rate 75%

*Schools that have provisional approval meet the initial requirements of Nevada laws and regulations to offer a program of nursing education in Nevada. To obtain full approval, they must gain national accreditation (which they cannot do until after their first class is graduated), and they must achieve a first-time pass rate of 80 percent or higher on the NCLEX (an annual average).

*Graduates from a school that has provisional rather than full approval will be eligible for Nevada licensure; however, graduates will have to check with other states regarding their licensure requirements.

*Schools that have conditional approval meet requirements for full approval but have not maintain a first-time pass rate of 80 percent or higher on the NCLEX for two consecutive years.

Board Advisory Committees

Committee meeting dates, agendas and minutes are available for review on the board’s website or by calling the board to request a hard copy.

ADVANCED PRACTICE REGISTERED NURSE COMMITTEE

“The mission of the Advanced Practice Registered Nurse Advisory Committee is to advise Nevada State Board of Nursing on matters or issues related to advanced nursing practice.”

Sheryl Giordano, DNP, APRN-C, APRN Consultant/Investigator - Committee Chair

Members:
Aaron Bellow Jr., PhD, RN, APRN, FNP-BC
Pamela Burgio, MSN, RN, APRN, PNP
Paul Kapsar Jr, MSN, RN, APRN, FNP-BC
Rhone D’Errico, MSN, APRN-BC, FNP-C, PMHNP-BC
Cheryl A. Maes, PhD, MSN, APRN, FNP-BC
Teresa Praus, MSN, APRN, FNP-BC
Patricia Strobelm, MSN, APRN, FNP-BC
Maileen Ulep-Reed, MSN, APRN, FNP-BC
Jeanine Packham, DNP, ACNP-BC, CCRN-CMC, PHN

Significant matters referred to the committee included:

- Created a work group for the revision of Scope of Practice Decision Tree
- Review SB227, signature authority implementation on certain forms
- Review AB105 suicide prevention and mandatory continuing education (CE) requirements
- Review AB474 implementation requirements and mandatory CE – dispensers/prescribers
- Update APRN audit procedure
A committee with its membership defined by statute (NRS 632.072) to advise and make recommendations to the Board on matters relating to nursing assistants and medication aides-certified.*

Catherine Prato-Lefkowitz, PhD, MSN, RN - Committee Chair

Members:
- Tracy Gentry, CNA - CNA Member
- Rhonda Meyer, RN - Division of Health Care Financing and Policy
- Carole Wiseman, RN - AARP Member
- Carla Wright, MSNed, RN - RN Member, Work Group Chair
- M. Jeanne Hesterlee, RN - Bureau of Health Care Quality and Compliance
- Robert Kidd, Long Term Care
- Jennifer Williams-Woods, Division of Aging Services

Significant matters referred to the committee included:
- Evidenced-based review of current faculty ratio regulation
- Facilitate utilization of national best practices by faculty
- Facilitate collaborative faculty/facility partnerships
- Assess the use of electronic databases to consolidate clinical paperwork to facilities and streamline education programs and facility interface
- On-going review of simulation in Nevada nursing programs

Certified Nursing Assistant Advisory Committee Description

The Certified Nursing Assistant Committee is developed by statute (NRS.632.072). The CNA Advisory Committee consists of 11 members representing a specific area of expertise. For example, there is a member from the Bureau of Health Care Quality and Compliance, and a member from Long-term Care, a certified nurse assistant, a representative of medical facilities which provide acute care, a representative of agencies to provide nursing care in the home, a representative from the Division of Aging Services and a representative of the American Association of retired Persons (AARP). The focus of this Committee is to identify and discuss any issues related to CNA practice in Nevada. There is a sub-group of the CNA Committee which identifies the CNA programs who are not teaching to the 80% passing requirement on the CNA State Certification Examination administered by Headmaster. The subcommittee reaches out to those programs to offer support in terms of tools or workshops available to help them become more effective programs. The CNA Committee reviews the Headmaster year-to-date scores and discusses any areas that are determined to be weak. For example, the committee identified that the lowest performing skill in Nevada on the test is the manual blood pressure skill. Interventions have been discussed by committee members on how to increase this skill passing rate. Another charge of the committee is to review potential CNA programs wishing to be established in Nevada. The potential CNA programs come before the committee to introduce their program and feedback is given so the programs are successful. A highlight of last year was that the committee identified that many high school students were not taking the Headmaster certifying examination due to financial hardships. The Office of Workforce Innovation (OWINN), through the Governor’s office, has provided all testing fees to be provided to high school CNA students. This funding has been distributed so the students graduating in the Fall of 2019 will have access to those funds. There should be an uptick increase of high school students testing in the future.

* Medication-aides certified were created by statute (NRS 632.291) in 2011. No MA-C's have been employed in Nevada and there are none currently certified in Nevada.
Advises and makes recommendations to the Board on matters related to substance use disorder in nursing and/or mental health issues that may impair nursing practice

Sherri Twedt, RN, LNC – Committee Chair

Active Members:
Richard Angelastro, MSN, RN
Rebecca Gebhardt, APRN, FNE
Susan Hubbard, MS, BS, RN
Peggy Cullum, BSN, RN
Beth Kiehn, APRN
Susan O’Day, MSNed, RN, CPAN
Toril Strand, BA, RN-C

Activities of the committee included:
- Recommendations regarding drug testing participants in monitoring/probation programs
- Review, revision, and recommendation for changes in criteria related to stipulations in monitoring/probation programs
EDUCATION ADVISORY COMMITTEE

Advises and makes recommendations to the Board with regard to matters relating to education and continuing education of nurses and nursing assistants.

Catherine Prato-Lefkowiz, PhD, MSN, RN - Committee Chair

Members:

Kimberly Baxter, DNP, APRN, FNP-BC
Mary Chalfant, MS, RN
John Coldsmith, RN, MSN, DNP, NEA-BC
Irene Coons, PhD, RN, CNE

Brian C. Oxhorn, PhD, RN
Marianne Tejada, DNP, MSN, RN, PHN

Education Advisory Committee Description

The Education Advisory Committee (EAC) is comprised of educators throughout Nevada whose charge is to identify issues affecting nursing education in Nevada. The EAC reviews all year-to-date NCLEX scores, reviews applications for all potential nursing programs wishing to enter the state, and provides feedback and perspectives on issues and potential challenges Nevada nursing programs are facing. There are a few workgroups through the EAC that work together to find evidence based interventions for issues affecting Nevada education. The workgroups are charged with enhancing clinical and faculty partnerships in Nevada, creating Nevada specific simulations for all Nevada nursing programs, creating online modules for new clinical faculty to view to help introduce them to the clinical teaching environment, and identifying evidence based movements throughout the nation which could affect Nevada nursing programs. The EAC members continue to work together to ensure Nevada nursing students are receiving high quality education so the graduates can meet the needs of Nevada residents.

Significant matters referred to the committee included:

- Evidenced-based review of current faculty ratio regulation
- Facilitate utilization of national best practices by faculty
- Facilitate collaborative faculty/ facility partnerships
- Assess the use of electronic databases to consolidate clinical paperwork to facilities and streamline education programs and facility interface
- On-going review of simulation in Nevada nursing programs
Advises and makes recommendations to the Board with regard to matters relating to establishing and maintaining scope of practice for nursing in Nevada

Sam McCord, BSN, RN, Director of Nursing Practice – Committee Chair

Nursing Practice Advisory Committee Description and Accomplishments

The Nursing Practice Advisory Committee (NPAC) advises and reports to the Board on matters related to the establishment of state standards of nursing practice. The committee consists of at least 10 persons who are knowledgeable in all areas of general nursing practice in Nevada and trends in national nursing practice.

The NPAC met on all scheduled dates for FY 17/18, a quorum was met at every meeting. The committee added three new members that contributed the broad range of practice knowledge and clinical experience so necessary to the committee’s effectiveness. Four members completed their terms on the committee. The membership to date stands at 11 and met the regulatory requirement mandating at least 10 members without exception throughout FY 17/18.

The activities, actions and accomplishments of the NPAC for FY 17/18:

- Established process for review, revision and updates of long standing practice decisions to ensure their relevance, accuracy and that they are current with accepted national standards of practice. Additionally, a standardized format for Practice decisions was established.
- Received reports from the committee chair regarding scope of practice questions received by board staff that are relevant to NPAC practice decisions.
- Addressed the following Practice decision requests:
  - The Role of the RN in Moderate/Procedural Sedation, Revised and Adopted by Board 5/16/18
  - Sexual Assault Nurse Examiner (SANE) Practices and Qualifications, Revised and adopted by Board 3/23/18
- Reviewed and updated the following NPAC Practice decisions:
  - Rapid Sequence Intubation (RSI) Guidelines, Revised and Adopted by the Board 5/16/18
  - RNs Advancing or Withdrawing Endoscopes and Colonoscopes, Revised and Adopted by the Board 3/23/18
  - Insertion of External Jugular Peripherally Inserted Central Catheters (EJ PICC) and External Jugular Peripheral Intravenous Catheters (EJ PIV), Revised and Adopted by the Board 3/23/18
  - Role of LPN with Nasogastric Tubes and RNs with Gastrostomy Tubes, Revised pending Board adoption
  - Role of RN with Intraosseous Catheter Placement and Infusion, Revised pending Board adoption

NPAC Goals for FY 17/18:
- Review, revise and update no less than two standing Practice Decisions per NPAC meeting to meet a total of 12 at end of FY 17/18
- Review scope of practice statistics and trends as reported by committee chair and identify at least two practice related safety topics the NPAC can address and educate nurses in the practice setting.
  - All updated Practice Decisions to be sent to Nevada facilities and hospitals via the Bureau of Healthcare Quality and Compliance facility mailing system.
Annual Review by the Numbers
Annual Review by the Numbers

Board Process:

The Board reviews a minimum of three years of statistical information on an annual basis to identify trends in licensure, certification, investigation and discipline, continuing education audits, and compliance. The data is collected on the last day of the fiscal year which runs from July 1, through June 30.

Total Nevada Active Licensees and Certificate Holders

- 15/16: 47,639
- 16/17: 50,906
- 17/18: 53,899

Total Active Nevada Licensees and Certificate Holders by Type

- CNAs: 9,344 (17.3%)
- Licensed Nurses: 44,555 (82.7%)
Advanced Practice Registered Nurses (APRNs)

**Number of APRNs with an active license:**

The data demonstrates a 13% increase in active APRNs from the prior year.

![Active APRNs by Fiscal Year](chart.png)

Although NSBN does not keep statistical data regarding APRN practice locations, the address of record provided to the Board indicates a county of residence. This information is helpful in reviewing the locations of APRNs with active Nevada licensure.

The NSBN has collaborated with the Nevada State Board of Pharmacy to ensure APRNs meet legal requirements to prescribe medications and/or controlled substances, with or without a collaborative agreement with a physician, and if they qualify to dispense medications and/or controlled substances if they choose. All APRN licenses indicate prescribing status as follows:

- **Active** - an APRN qualified for licensure but has not met requirements or chooses not to prescribe medications.
- **Active Restricted** - an APRN qualified for licensure with a restricted license as a disciplinary measure.
- **Active Prescribing** - an APRN qualified for licensure and to prescribe controlled substances only in schedule III, IV, and V.
- **Active Prescribing CII** - an APRN qualified for licensure and to prescribe controlled substances in schedules II, III, IV, and V with or without a collaborative agreement with a physician.
- **Active Prescribing CII D** - an APRN qualified for licensure and to prescribe controlled substances in schedules II, III, IV, and V with or without a collaborative agreement with a physician, and to dispense those medications.

**Number of Nurse Initial Applications by Type per Fiscal Year**

- **Total Applications by Endorsement**
  - FY 17/18: 664
  - FY 16/17: 691
  - FY 15/16: 688

- **Total Applications by Exam**
  - FY 17/18: 1463
  - FY 16/17: 1345
  - FY 15/16: 1194

- **Total Nursing Initial Applications Received**
  - FY 17/18: 2127
  - FY 16/17: 2236
  - FY 15/16: 1882

**Nurse licensee initial applications by outcome:**

Applications are valid for one year from the date received by the Board or the application is considered incomplete and lapsed. An application may be sent to investigation if the criminal background check is positive, if the applicant answers “Yes” to one or more of the eligibility screening questions, or if evidence is discovered that indicates the application is potentially fraudulent. The Board may sanction an applicant in the form of denial of licensure, formal disciplinary action, or ordering the licensee be placed on a term of monitoring or probation. When an application is denied per policy the applicant is given the opportunity to reapply. When investigation results in no violations found the applicant is cleared for processing. Pending applications remain in process on the last day of the FY.

**2017/18 Application Breakdown**

- Total applications: 6510
- Endorsement applications: 627
- Exam applications: 101
- No case: 5852
- Found fraudulent: 23
- Potentially fraudulent: 167
- Yes with discipline: 7
Nursing assistant initial applications by type:

Endorsement applicants are those holding an active certificate in another state or jurisdiction seeking certification in Nevada. Exam applicants are new graduates applying for a nursing assistant certificate in Nevada.

Nursing Assistant initial applications by outcome:

Applications are valid for one year from the date received by the Board or the application is considered incomplete and lapsed. An application may be sent to investigation if the criminal background check is positive, if the applicant answers “Yes” to one or more of the eligibility screening questions, or if evidence is discovered that indicates the application is potentially fraudulent. The Board may sanction an applicant in the form of denial of certificate, formal disciplinary action, or ordering the licensee be placed on a term of monitoring or probation. When an application is denied per policy the applicant is given the opportunity to reapply. When investigation results in no violations found the applicant is cleared for processing. Pending applications remain in process on the last day of the FY.
Renewal applications by outcome:

An application may be sent to investigation if the criminal background check is positive, if the applicant answers “Yes” to one or more of the eligibility screening questions, or if evidence is discovered that indicates the application is potentially fraudulent. The Board may sanction an applicant in the form of denial of certificate, formal disciplinary action, or ordering the certificate holder to be placed on a term of monitoring or probation. When investigation results in no violations found the applicant is cleared for processing. Applications are valid for one year from the date received by the Board or the application is considered incomplete and lapsed. Pending applications remain in process on the last day of the FY.

Complaint Investigation and Discipline:

Investigation and discipline support public protection. Complaints submitted to the board are sent to investigation when there are allegations of alleged violations of the Nevada Nurse Practice Act. When an investigation is initiated, board staff ensure that nurses and nursing assistants (respondents) are given due process, which requires adequate notice and description of the charges, the right to hire an attorney at their own expense, and to have a hearing or the opportunity for a hearing. Respondents also have the right not to respond to allegations, not to participate in settlement negotiations, not to sign anything, the right to see the complaint, and the right to appeal any Board action.

At the conclusion of a thorough investigation the board may: Close a complaint with no further action; Offer remediation generally in the form of targeted education to address the practice breakdown; Offer or order a non-disciplinary program such as practice monitoring; Discipline the respondent via an application denial, a reprimand, a fine, a term of probation, a term of suspension, revocation or voluntary surrender of license/certificate.

Nurse CE Audits and Outcomes:

To be eligible for license renewal, RNs and LPNs must complete 30 continuing education (CE) credits within the previous twenty-four months in addition to having completed a one-time board approved 4 CE bioterrorism course in addition to meeting all other renewal requirements. APRNs must complete 45 CEs directly related to his/her role or population focus, and Certified Registered Nurse Anesthetists (CRNAs) must complete 45 CEs related to practice as a nurse anesthetist in addition to meeting all other renewal requirements. The Board audits a minimum of 10% of all nurse renewal applicants each month to ensure compliance with continuing education/competence requirements as attested to on each renewal application.

</table>
A BRIEF HISTORY

1915  
First of four attempts to  
legislate nurse registration in  
Nevada.

1919  
Sadie Hurst, assemblywoman  
from Washoe County,  
introduced nurse exam and  
licensure legislation which  
passed but was vetoed by the  
Governor. “The greatest  
opposition to the bill came  
from nurses who had attended  
training schools but did not  
receive diplomas.”

1922  
Last class graduated from St.  
Mary’s Hospital Training  
Program. “The decision to  
close the school was prompted  
by the failure of the Nevada  
legislature to pass a Nurse  
Registration Act and, without  
the law, nurses could not  
obtain reciprocal registration  
with other states...”

1923  
Nevada legislature established  
Board of Nurse Examiners,  
Mary Evans, the first  
president, was issued Nevada  
license #1. Between 1923 and  
1931, there were 196 licenses  
issued.

1947  
The Board of Nurse Examiners  
is given authority to accredit  
nursing schools. The number  
of Board members was  
increased to five RNs.

1949  
The Board of Nurse Examiners  
given authority to regulate  
practical nurses.

1963  
Two LPN members added to  
the Board. LPN Board  
members restricted to deciding  
matters pertaining to practical  
nursing.

1963  
Amendment to the Nurse  
Practice Act directing the  
governor to solicit names for  
the Board of Nurse Examiners  
from the Nevada Nurses  
Association.

1973  
One consumer member added  
to the Board. All Board  
members now have the same  
decision making authority as  
the RN members.

1977  
Number of Board members  
reduced by one RN. Board  
now consisted of four RNs,  
two LPNs and one member  
of the general public.

1979  
The Nevada State Board of  
Nursing (NSBN) is given  
authority to regulate advanced  
practitioners of nursing.

1982  
30 hours of continuing  
education became mandatory  
for re-licensure in nursing.

1989  
NSBN given the authority to  
regulate certified nursing  
assistants.

1994  
NSBN begins fingerprinting  
all initial applicants for  
licensure and certification.

1995  
One CNA member added to  
the Board, replacing one LPN  
member. The Board now  
consisted of four RNs, one  
LPN, one CNA and one  
member of the general public.

2003  
Nevada legislature passed  
Assembly Bill 250 requiring  
nurses to take four hours of  
continuing education relating  
to the medical consequences  
of an act of terrorism that  
involves the use of a weapon  
of mass destruction.

2010  
NSBN joins National Council  
of State Boards of Nursing’s  
Nursys Database.  
NSBN begins fingerprinting  
applicants on renewal.

2012  
NSBN given authority to  
regulate medication-aides  
certified.

2013  
AB 170 passed allowing full  
practice authority for Nevada  
APRNs.  
NSBN celebrated 90 years of  
service to the residents of  
Nevada.

2016  
AB 105 passed, revises  
continuing education  
requirements related to suicide  
prevention and awareness.  
AB 474 passed in response to  
the opioid epidemic, provides  
specific guidelines for APRN  
prescribing.  
SB 227 passed allowing  
qualified APRNs to sign,  
certify, stamp, verify or  
endorse certain documents  
requiring an MD signature.
