PRESCRIBING PRIVILEGES INFORMATION

If you are requesting prescribing privileges, you must apply for prescribing privileges in your APRN application and indicate which control substance authority you are requesting. Once your permanent APRN license is issued, and you are qualified for prescribing privileges, the Board will notify the Board of Pharmacy that you are eligible for prescribing privileges. You must apply for prescribing privileges with the Board of Pharmacy. You may not prescribe any medications until the Board of Pharmacy has issued you a license to prescribe. If you wish to prescribe controlled substances, you must apply with the Board of Pharmacy and the Drug Enforcement Administration (DEA). You may not prescribe controlled substances until the Board of Pharmacy and DEA have granted you a license/certificate to prescribe.

If you are requesting to prescribe schedule II controlled substances you must submit documentary evidence that you have practiced at least 2 years or 2,000 hours as an APRN or a signed protocol with a collaborating physician for the prescribing of schedule II controlled substances. Documentary evidence may include but is not limited to:

- * A signed letter from your employer(s) stating that you have clinically practiced for a total of two (2) years OR 2,000 hours;
- * A signed letter from your collaborating physician or another APRN whom you have been working with stating that you have at least 2,000 hours or two (2) years of clinical practice;
- * Any other available form of verification. (Will be reviewed individually for acceptance.)

APRN Protocol: An example of this protocol is available on the Board's website under the "forms" tab. If you are not prescribing Schedule II Controlled Substances, you are not required to meet this requirement.

Failing to obtain a protocol with a collaborative physician, if required, may result in a complaint/investigation against your license for practicing beyond scope and may be grounds for disciplinary action against your license.
